Designed and engineered in Japan, Uniden's DECT 1615 uses the Wireless Friendly DECT technology. This handset derived from cuttingedge American DECT 6.0 Technology so this Cordless Phone System is a great entry level cordless phone.

We've introduced a handy NEW feature - Blackout Power Failure^ Protection Feature. When a Power Failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receives calls using a handset.

These phones are ideally suited to high density living environments and have excellent array of features suitable for any home. They have great talking range, unique styling, 3 line backlit display LCD display and are Wireless (WiFi) Network friendly. The digital duplex speakerphone on the handset makes handsfree communication a breeze.

This phone has a duplex speakerphone allowing you to have handsfree conversations and ensure you can keep working while on the phone.

Uniden quality and performance makes an outstanding and reliable digital choice.

Suggested Retail: \$34.95

^ When a Power Failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receive calls using a handset. However, none of the keys on the base unit are functional during the Power Failure mode and the power life is limited to that of the remaining Power Life of the Cordless Handset battery.
