Designed and engineered in Japan, Uniden's DECT 3115+1 uses the Wireless Friendly DECT Technology. This handset derived from cutting-edge American DECT 6.0 Technology the DECT 3115+1 Cordless Phone System is nothing but a premium choice.

We've introduced a handy NEW feature to the DECT 3115+1 - Blackout Power Failure[^] Protection Feature. When a Power Failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receives calls using a handset.

PREMIUM DECT

These futuristic styled phones are ideally suited to high density living environments and have a comprehensive array of features suitable for any home. They have enhanced talking range, unique styling, a large backlit display LCD display and are Wireless (WiFi) Network friendly. The digital duplex speakerphone on the handset makes handsfree communication a breeze.

Another brilliant feature of the DECT 3115+1 is the DND (Do Not Disturb Function), this button allows you to mute the ringer on the handset and the base at once. Ideal for young families and shift workers.

The DECT 3115+1 also has an ECO Friendly Mode, which allows the cordless handset to automatically adjust electrical consumption to save power.

This phone is multi handset capable, allowing up to 6 handsets to be connected to just one phone socket. Uniden quality and performance make the DECT 3115+1 an outstanding and reliable digital choice.

[^] When a Power Failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receive calls using a handset. However, none of the keys on the base unit are functional during the Power Failure mode and the power life is limited to that of the remaining Power Life of the Cordless Handset battery.
