Uniden's 2.4GHz Digital Spread Spectrum (DSS) cordless phones are versatile and contemporary to suit households of any size.

They utilise the 2.4GHz frequency and Digital Spread Spectrum technology which delivers excellent sound clarity, range and security.

The DSS 2415 features a digital duplex speakerphone on the handset, alpha display caller ID and two-way communication between handsets anywhere without the base.

Excellent quality, performance and powerful features make the DSS 2415 the most versatile and impressive cordless phone on the market.

Suggested Retail: \$159

The DSS 2405 is available as an additional handset and charging base.  
Suggested Retail: \$119
