Uniden's 2.4GHz Digital Spread Spectrum (DSS) cordless phones are versatile and contemporary to suit households of any size. They utilise the 2.4GHz frequency and Digital Spread Spectrum technology which delivers excellent sound clarity, range and security.

The DSS 2455 also features an integrated digital answering machine, digital duplex speakerphones on the handset and base, alpha display caller ID and two-way communication between handsets anywhere without the base.

The DSS 2455 has the added feature of conversation record allowing you to record those important conversations.

Excellent quality, performance and powerful features make the DSS 2455 the most versatile and impressive cordless phone on the market.

Suggested Retail: \$199
The DSS 2405 is available as an additional handset and charging base.
Suggested Retail: \$119
