Uniden's 2.4GHz Digital Spread Spectrum (DSS) cordless phones are versatile and contemporary to suit households of any size.

They utilise the 2.4GHz frequency and Digital Spread Spectrum technology which delivers excellent sound clarity, range and security. The DSS 2475 also comes with an integrated digital answering machine and three handsets.

They also feature digital duplex speakerphone on the handsets and base, alpha display caller ID and two-way communication between handsets anywhere without the base.

The DSS 2475 has the added feature of conversation record allowing you to record those important conversations. Excellent quality, performance and powerful features make the DSS 2475 the most versatile and impressive cordless phone on the market. The pack also comes inclusive of a Handsfree Headset (HS-910).

Suggested Retail: \$329 The DSS 2405 is available as an additional handset and charging base. Suggested Retail: \$119
