When it comes to design and performance Uniden's 5.8GHz Digital Spread Spectrum (DSS) elite range of cordless phones makes a powerful statement.

Only Uniden utilises the 5.8GHz frequency range to deliver an unparalleled new standard in sound clarity.

This phone has an integrated Digital Answering Machine , Alpha Display Caller ID and comes with two handsets. Digital speakerphones on the handset and base allow you to have that important phone call no matter where you are or what you are doing. Caller ID features allow you to identify the caller's name and number before you answer the phone.

Excellent quality, performance and powerful features make the DSS 5865 the ultimate cordless on the market.

Suggested Retail: \$449.00
