Operating Manual PDF

For Optimum Clarity, Superior Technology and Sophisticated Styling you cannot overlook Uniden's 5.8GHz Digital Spread Spectrum (DSS) range of cordless phones.

Utilising a wider 5.8GHz Digital Spread Spectrum Bandwidth, these phones are equipped with an array of powerful features including the versatility of being able to operate with up to 10 handsets using the one phone socket.

The DSS 7855 + 2 also comes with two additional handsets and charge cradles, an Integrated Digital Answering Machine with remote access, Advanced Alpha Display Caller ID, 100 Caller ID Memories and the ability to allocate individual caller ring tones to enable easy caller identification. Enjoy the ease of hands-free communication with a Digital Duplex Speakerphone and the exclusive Uniden feature of Dual LCD Display, on both the handset and base. This model also gives you the option of diverting all incoming calls directly to the Integrated Digital Answering Machine by using the Do No Disturb feature.

Combine all these with the added convenience that 5.8GHz Technology will not interfere with typical wireless networks, and you have the perfect communication accessory to suit households of any size.

Uniden quality, performance and powerful features make the DSS 7855 + 2 a truly innovative model of technological excellence and contemporary design.

Suggested Retail: \$299.00.

The DSS 7805 is available as an additional handset and charging base.
Suggested Retail: \$149.00.
