For Optimum Clarity, Superior Technology and Sophisticated Styling you cannot overlook Uniden's Premium 5.8GHz Digital Spread Spectrum (DSS) range of cordless phones.

Introducing the worlds first 100% Water and Dust Proof Cordless phone in the market. Submersible and Ideal for taking those calls in the pool. The DSS 7955 + 1WP is ideal for those that spend a lot of time on the run as the additional handset is durable and rugged enough to use indoor or outdoor. The additional handset meets JIS7 waterproof specifications allowing it to withstand all the elements. Alternatively for those that need a cordless phone in the factory or garage the additional handset is dust and dirt proof and with its rubber side grips makes it ideal.

**AUSTRALIA &
NEW ZEALAND**

Utilising a wider 5.8GHz Digital Spread Spectrum Bandwidth, these phones are equipped with an array of powerful features including the versatility of being able to operate with up to 10 handsets using the one phone socket.

The DSS 7955 + 1WP includes an Integrated Digital Answering Machine with remote access, Advanced Alpha Display Caller ID, 100 Caller ID Memories on each handset and the ability to allocate individual caller ring tones to enable easy caller identification. Enjoy the ease of hands-free communication with a Digital Duplex Speakerphone and the exclusive Uniden feature of Dual LCD Display, on both the handset and base. This model also gives you the option of diverting all incoming calls directly to the Integrated Digital Answering Machine by using the Do No Disturb feature.

Combine all these with the added convenience that 5.8GHz Technology will not interfere with typical wireless networks, and you have the perfect communication accessory to suit households of any size.

Uniden quality, performance and powerful features make the DSS 7955 + 1WP a truly innovative model of technological excellence and contemporary design.

Suggested Retail: \$269.95

The DSS 7905 is available as an additional handset and charging base.
Suggested Retail: \$119.95
