

### New 5K dash cam hits the road as part of new Uniden range

Uniden has announced new additions to its DashView and iGO Cam series with five new dash cams joining the award-winning range. Leading the charge is the **DashView 60+**, Uniden's first 5K Video Ultra Resolution dash cam, staying true to the brand's commitment to industry leading Japanese quality, engineered for Australia.

Matching high tech features with contemporary design, the new Uniden dash cams provide a greater range of options to capture vision outside and inside the vehicle, catering to recreational drivers, commuters and professional road users including couriers, taxis, commercial drivers and tradespeople.

#### DashView Cam Series

The Smartphone enabled Uniden DashView range fits the latest high-end dash cam technology into a sleek and compact design, ideal for discreet positioning in premium vehicles. The **DashView 60+** boasts a unique 5K resolution, 150-degree wide angle front facing camera for the highest quality vision while in motion. With built-in Sony Starvis sensors, all models have outstanding low light sensitivity and Wide Dynamic Range for a clearer picture in both bright and low light to capture any incident at any time of the day. The DashView dash cams also come with energy saving Smart Parking Mode that records motion-activated events in 60 second blocks, when cars are parked. The new **Dashview 60R** is a 4K Smart Dash Cam and also includes a 2k Rear Camera for more peripheral vision around the vehicle. With three cameras in one, the **DashView 40R** includes an up to 4K Ultra Video Resolution front camera, plus a Full HD rear camera and cabin camera, providing another layer of safety for taxi and Uber drivers.

The DashView series makes it easier than ever to access and share recordings, thanks to built-in WiFi connectivity and the free DashView app for Android and Apple smartphones.

#### Other features:

- Up to 5GHz Built in WiFi for fast data transfer
- Safety Speed/Red Light Camera Warnings
- Windows/Mac Viewer

- Built in GPS and G Sensor
- Loop and Event Recording
- Multi-Level Cell 64GB U3 High Endurance SD Card (included)
- 2 Year Warranty (SD card and accessories 6 months)

**Uniden DashView 60+ – RRP \$399.95**

**Uniden DashView 60R – RRP \$499.95**

**Uniden DashView 40R – RRP \$429.95**

## iGO Cam Series

Affordable and accessible, Uniden's latest iGO Cam smart dash cams, the **iGO Cam 35** and **iGO Cam 45R**, are compact cameras using the latest in-car accident recording "Black Box" technology with 130-degree Wide Angle View cameras to record more of the action around the vehicle. The 3-axis g-sensor measures and captures acceleration and g-force impact in three different dimensions, while the in-built parking sensor detects sudden vibration that triggers footage recording even when the engine is off. The iGO Cam 35 features a 2" LCD colour screen and full HD camera. For more visibility, the iGO Cam 45R has a 3" LDC colour screen, 2K front camera and a full HD rear camera. Both iGO Cams come with a sticker mount with a rotating design for optimal visibility and stability.

## Other features:

- Plus & Play – easy set up
- Event and Loop Recording Mode
- Photo Mode
- Date and Time
- 3.6m USB power cable and charger
- Records Footage onto Micro SD Card 128GB max capacity (Not Included)

**Uniden iGO Cam 35 – RRP \$99.95**

**Uniden iGO Cam 45R – RRP \$179.95**
