Range Brochure PDF 

Operating Manual PDF 

For Optimum Clarity, Superior Technology and Sophisticated Styling you cannot overlook Uniden's ELITE 5.8GHz Digital Spread Spectrum (DSS) range of cordless phones.

Introducing the new ELITE Series this new range utilises a wider 5.8GHz Digital Spread Spectrum Bandwidth. These phones are equipped with an array of powerful features including Integrated Bluetooth Technology ideal for Handsfree Bluetooth Headsets. The ELITE series are wireless network friendly, operate with up to 10 handsets and are styled and engineered with sleek elegant lines and a unique flip handset with Advanced Colour LCD for easy viewing.

The ELITE 8855 also features an Integrated Digital Answering Machine with Remote Access, Easy Menu Navigation and Coloured Icons and Ability to Record your Own Ringtone. Enjoy the ease of hands-free communication with a Digital Duplex Speakerphone and a Dual LCD Backlit Blue Display on both the handset and base. This model also gives you the option of diverting all incoming calls directly to the Integrated Digital Answering Machine by using the Do Not Disturb feature.

Combine all these with the added convenience that 5.8GHz Technology will not interfere with typical wireless networks, and you have the perfect communication accessory to suit households of any size.

Uniden quality, performance and powerful features make the ELITE 8855 a truly innovative model of technological excellence and the flagship of all landline communications worldwide.

Suggested Retail: \$329.00.

The ELITE 8805 is available as an additional handset and charging base. Suggested Retail: \$149.00. The ELITE 8815 is available as an additional handset and charging base. Suggested Retail: \$249.00.
