This phone offers versatility and style with the added convenience of Advanced LCD with Caller Identification to show you the incoming number and name of who is calling you.

This modern designed phone has many great features including Duplex Speakerphone, Adjustable Earpiece and Speakerphone Volume Control. Offering an advanced LCD and Caller ID display and with it's feature of Real Time Clock allows you to keep track of the time while you are on that important call.

The FP 1355 is operational even under power failure conditions even under those unexpected power failures which is essential or alternatively you can use it as a backup to your cordless phone. This product is designed and engineered by Uniden providing the most superior sound quality that a corded phone has to offer.
