XTRAK40 KEY FEATURES

80 UHF Narrowband Channels*: Choose from up to 80 Frequencies to transmit and receive messages.

Instant Replay Function: Record and Replay up to 3 minutes of recently received Transmissions

Master Scan® - Uninterrupted Communication
Master Scan® allows a group of users to seamlessly communicate on not just one channel but a group of channels. If your current channel is interrupted by others outside of the group, all radios in your group will automatically hop to a new clear channel allowing seamless uninterrupted communication to continue.

Mini Compact Size: 23mm (H) x 128mm (W) x 103mm (D)

UHF & Scanner In One[‡]

External Speaker Jack (Rear)

Police and Fire Frequencies[‡]

12 / 24 Voltage Suitable for any vehicle

100 Extra Receive Only Channels: (400-520MHz in 12.5kHz Steps)[‡]

Heavy Duty Speaker Microphone with Smart Key Function

Mic Smart Key: Allows you to toggle between the Voice Enhancer Feature, Instant Replay Feature, Instant Channel or Call Tone Feature depending on your requirements.

Large LCD Display Feature:
Large icon display.

7 Colour LCD / Backlit Options: Select from 7 backlit colour options: Blue, Red, Orange, Green, Cyan, Yellow and Clear (white) and 4 brightness levels: Off, Lo, Mid and Hi.

Voice Enhancer: Choose from 4 different audio level settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

Interference Eliminator (CTCSS):
Block out unwanted conversations.

Digital Coded Squelch (DCS): Choose from 104 alternative digital codes that can be sent with your transmission. The digital code is recognised by the selected receivers enabling them to receive the transmission. Receivers that do not recognise the digital code remain silent therefore blocking out unwanted conversations.

Built-In AVS Circuitry:

The Automatic Volume Stabiliser detects Narrowband and Wideband transmissions and automatically adjusts incoming audio to comparable levels.

5W Transmission Power: Maximum transmit power.

Signal Strength and RF Power (S/RF) Meter

Instant Channel Programming and Recall:
Program any channel as the Instant priority channel and recall it at the touch of a button.

Open Scan: This scan mode scans all channels in memory and locks on any active channel.

Group Scan: This scan mode allows the user to select the channels they wish to monitor / listen to in a group, along with a priority channel (priority watch).

Duplex Capability: Allows the radio to operate via a local repeater station, if available, which re-transmits your signal over a wider area. Up to an extra 3-100km depending on location, height and availability of local repeater station.

Triple Watch: Allows you to monitor two channels plus the standby channel every 1.5 Seconds.

Key Beep On / Off Feature

Rotary CH/VOL Select Knob

Busy Channel Lock-out Function: Disables your transmitter while activity is detected on the channel.

Roger Beep Function On/Off: Confirmation tone indicates the completion of your transmission.

Voice Scramble Function: Enabling private communication by scrambling the voice signal, preventing other users without special scrambling equipment from understanding the conversation. Compatible Uniden units will be able to understand the signal.

Call Tones: Transmit up to 10 different calling tones to contact other users.

Key Lock

Power On/Off Control Switch

Designed and Engineered in Japan

Built for Rugged Australia and New Zealand Conditions

WATERPROOF[‡] UHF RADIO

Choose to install this UHF Radio in a outdoor offroad vehicle, ATV / 4x4 vehicle, farming vehicle, industrial machinery or quad bike where the radio can withstand weather conditions with the radio being equipped to IP67[‡] standard.

SMART MIC
TECHNOLOGY

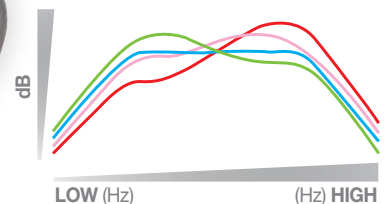

Voice
Enhancer

- 4-Way Smart Key
- Built-in Dynamic Speaker
- One Touch Control

Choose from 4 different audio level settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

Only Uniden can bring you this technology - Voice Enhancer.

OFF Normal | L1 (Bass) | L2 (midrange) | L3 (High)

* Please note: CH22 & CH23 are used for telemetry and telecommand applications, voice communications are not permitted on these channels and transmission is inhibited. CH61, 62 & 63 are for future use and receive only channels.

‡ Specifications subject to change without notice.

‡ One year warranty for the included accessories.

Within 400-520 MHz band only. This scanner can only listen to and receive unencrypted analogue transmissions.

‡ IP67 Standard: Protected from immersion in water with a depth of up to 1 meter (or 3.3 feet) for up to 30 mins and dust-tight being no ingress of dust.
