Uniden is proud to introduce its first Emergency Alert Pendant to its Cordless Phone Range. Working In conjunction with the Uniden SS E35/37 Cordless Phone Series the pendant is peace of mind for the visual and hearing impaired & help now is only a button press away.

The Emergency Pendant allows your call for help to be answered by people of your choice .Once the help button is pressed the pendant will first call the internal home phone system intercom so that someone in the house may be notified that help is required. If unanswered, the pendant will call up to 5 different phone numbers of your choice. Will call one at a time and If not answered, the pendant will move onto the next pre-programmed phone number. Once a called is accepted by the other party on the other line the person required help or assistance can talk through the pendant to the other line.

The Uniden Emergency Alert Pendant is splashproof allowing you to wear it in the shower and also outside so you always remain connected in case of an emergency. It is ideal for the Elderly or High Dependency People as the push of the help button contact for assistance can be made. Up to 5 Emergency Alert Pendants can be added to a Uniden SSE Cordless Phone which allows you to have an emergency pendant in the Bathroom, Bedroom or Living Room.
