| Like 83K

The SSE 33 phone system is a corded phone with large easy to read buttons.

The SSE 33 also has a SOS Assistance Button on the base.

SSE
VISUAL & HEARING IMPAIRED

1 Touch Help Button

- Calls up to 5 different numbers of your choice

For added peace of mind the phone is also operational under mains power failure conditions and can even have battery back from 4 x AAA batteries (not included) for the main base.

Operational Under Power Failure Conditions ^

- Battery backup for main base

The phone has two Hot Dial Buttons on the base and you can also add your own photo to these buttons to assist recall of which phone numbers were programmed to these buttons.

With TTS (Text to Speech) technology†, the base has the ability to read the number of the caller*. The base can also announce the number when you dial.

The SSE 33 also has an adjustable Handset Volume Switch, adjustable Handsfree Speaker Switch and a bright Visual Ringer Indicator on the base, which flashes to alert you to an incoming call. The phone is so
