

Supercharge the on-road experience with Uniden's New Smart Dash Cams

Embark on a journey with an extra set of eyes using Uniden's latest lineup of advanced dash cams. Whether you're a daily commuter navigating the bustling city streets, a weekend explorer chasing scenic views, or a professional driver clocking miles on the road, Uniden's latest high-tech range has every angle covered with the brand's highest resolution cameras able to perfectly capture the experience.

Uniden's newest DashView cameras seamlessly blend cutting-edge technology with sleek design, ensuring discreet yet powerful monitoring for every vehicle. The range redefines picture quality with the new DashView 60+ featuring a unique 5K Video Ultra Resolution and wide 150-degree angle front-facing camera, delivering crystal-clear visuals even amidst difficult and lowlight conditions. The DashView 60R is a 4K Smart Dash Cam and also includes a 2K Super HD Rear Camera for more peripheral vision around the vehicle.

Whether it's a picturesque road trip showcasing the perfect sunset or securing footage on the road to validate liability in a collision, Uniden's dash cams ensure you never miss a moment while in motion or stationary. Easily access and share recordings via the intuitive DashView app, to upload to socials or send to insurance providers to streamline accident reports.

For drivers looking to earn extra income via rideshare platforms, the new DashView 40R 3-in-1 dash cam includes an up to 4K Ultra Video Resolution front camera, plus a FULL HD rear camera and cabin camera, providing another layer of personal safety and protection in the event of an incident.

With so many benefits for road users, Brad Hales from Uniden advises the top benefits of installing or upgrading to a high-performance dash cam include:

- High quality recordings, ranging from Full HD to 5K resolution, to capture finer details like number plates, ensuring incidents can be followed up and insurance claims supported
- A combination of front, rear and cabin cameras to ensure full visibility outside and inside the vehicle
- Energy saving Smart Parking Mode to record motion-activated events in 60 second blocks when cars are parked, ideal when leaving cars unattended, including busy carparks
- Speed and red-light camera location warnings as an extra safety feature
- Built-in WiFi connectivity making it easy to access and share content with friends, family and on social platforms.

Experience the ultimate blend of safety, style, and convenience with Uniden's innovative dash cams, and unlock a world of adventure while staying protected on the road.
