**ADVANCED  
LANE CHANGE  
GUIDANCE**

Featuring an expansive 5" flat panel non-reflective LCD screen - among the largest available - the new top-of-the-line TRAX 5000 offers next generation 3D mapping technology to provide drivers with the most realistic navigation experience currently on the market.

With 360° 3D Landmark technology enabling famous locations such as the Melbourne Cricket Ground, Queen Victoria Building and Sky Tower to be viewed in 3D from any angle, the TRAX 5000 takes it a step further incorporating new 360 degree 3D City Maps technology which makes it possible to virtually view entire city blocks and identify key areas of interest. New 3D Terrain Software, which shows road elevations and land contours including overpasses and bridges, is another key feature.

Designed for drivers who demand exceptionally user-friendly high-quality car navigation systems, the new TRAX 5000 also utilises Advanced Lane Guidance and Signpost Information which visually indicates the most appropriate lane to use – a particularly useful feature in Australia's busy metropolises where early lane changes can significantly reduce stress and danger.

The TRAX Series include Text to Speech with Spoken Street Names, which enhances audible directions and makes finding a location even simpler. With an early warning system with built in nationwide coverage of fixed speed and red-light cameras and an over speed alert makes the TRAX 5000 a great safety tool to have as your companion in the car.

The screen is super bright, removing glare for crystal clear viewing. It also switches automatically to night mode for easy, glare-free viewing after dark. Predictive keyboard text also reduces the destination search time and if drivers make a wrong turn in a pre-programmed destination, the system will recalculate directions immediately.

When it comes to portable GPS car navigation systems the Uniden TRAX series is in a class of its own. It makes your trips safer and faster while giving you peace of mind that you will reach your destination on time, every time.

Suggested Retail: \$269.95
