Range Brochure PDF

Operating Manual PDF

This handheld scanner with full frequency display offers 80 programmable memory channels - 8 bands.

Frequency ranges received are 66-88, 137-174 and 406-512 MHz. Chain searching allows five different personal search bands and the ability to search up to all five chain locations at once.

Priority scanning allows a designated priority channel to be monitored every two seconds.

Suggested Retail: \$239
