[Operating Manual PDF](#)

The UH078sx is a compact 5 Watt Waterproof (JIS7) UHF radio featuring Metal Alloy Casing built for Australian and New Zealand Rugged and Tough Conditions.

The UH078sx is a top of the range UHF Handheld that is equipped with a dual desktop charger allowing you to charge your UH078sx and spare battery at the same time so you are never out of communication when you really need it. The UH078sx is in an elite class of its own with outstanding security features including Digital Coded Squelch, Voice Scramble Function and CTCSS. All these advanced security functions allow you to scramble your conversation or alternatively receive or block unwanted conversations.

With a Bearcat Engine the UH078sx can scan both UHF CB channels and user programmable channels at the same time. The UH078sx has 60 extra receivable channels for storage of favourite listening frequencies (450-512MHz).

The UH078sx has a range of up to 15km and with its Range Extender (Duplex) Capability the unit can achieve even further range depending on the location of your local repeater station and topographical conditions.

This radio is for those people wanting a powerful waterproof UHF radio so you can be sure to stay in touch.

Suggested Retail: \$449.95
