Ideal for off-shore communications, this splashproof UM355VHF is a great communication tool on the water. The splashproof radio housing is certified to meet the worldwide JIS4 water-resistance specification\*. It has a rugged splashproof speaker microphone great for operating on the water.

The UM355VHF allows you to boost the transmission power from 1 watt to 25 watts for maximum transmission distance. The Extra Large LCD Display and Keypad is backlit for easy viewing at night or in low light situations. The microphone and controls are made out of non slip rubberised material making it comfortable and secure to handle.

Designed in Japan to offer outstanding performance in virtually all conditions and situations, this off-shore radio represents the highest level of quality and performance in marine radios. Uniden's UM355VHF is durable and ideal enough for boating, marine, fishermen, commercial use and so much more.
