KEY FEATURES

Colour Night Vision The CMOS sensor offers clearer night vision, up to 30 metres. With the spotlight built into the camera this adds colour to see better in the dark.

170° Viewing Angle – Dual Lens and Dual View* The App Cam PANO is equipped with twin lenses. You can view and control the two displays at the same time via the SOLO App to have a 170° Wide Field of view.

Spotlight™ and Camera in 1 PIR motion activated spotlight illuminates your way and adds colour to see better in the dark.

Thermo Sense Technology A smart heat and movement sensor that eliminates any false triggers and ensures you are alerted to real alerts.

4K (8MP) Resolution View, record and playback the video at 4K (8MP) resolution.

SD Card & Cloud Backup Micro SD card (not included) for local storage and cloud backup for offsite storage. 7 Days of Cloud Storage is offered with longer paid plans available.

Weatherproof Design (IP65)* Place the camera outdoors or indoors, without worrying about the weather. Uniden App Cam Solo PANO guards you rain or shine.

Ai Intelligent Alerts Ensures notifications are received when people or cars are detected, while reducing the number of false alerts.

Customised Voice-Recordable Alerts Broadcast a personalised voice alert when motion is detected. Future Ai Alerts will be added via the SOLO app later on.

Dual-Band WiFi 2.4GHz/5GHz WiFi to support easy connection to any WiFi spot.

Siren Alert Trigger A siren is built into the camera to deter unwanted visitors.

Motion Detection Record Save motion events, including Ai detected events, on micro SD card (not included).

Privacy Masking Black out areas within the camera's view that you don't want to be recorded.

Innovative Installation Design Bracket and other accessories help it blend into any home or business placement.

PANO VIEW USING DUAL LENS HARDWARE

The APP CAM Solo Pano is equipped with twin lenses. You can view and control the two displays at the same time via SOLO App to have a 170° wide field of view.[§]

THERMO SENSE

HEAT & MOVEMENT SENSOR DETECTION

Thermo Sense technology is a smart heat sensor that detects motion from people as opposed to movement from trees and false alarms. The Thermo Sense feature on Uniden security PIR cameras allows you to receive notifications from actual events giving you the ability to act quickly and call the police when needed.

Ai ALERTS

VEHICLE AND PERSON DETECTION

The App Cam SOLO PANO deploys Ai Intelligence, giving it the ability to distinguish between a person and a vehicle. It then allows accurate detections alerting you through notifications, while at the same time reducing false alarms.

Uniden Australia Pty Limited is a wholly owned subsidiary of Uniden Holdings Co Ltd. uniden.com.au

Some jurisdictions and authorities may regulate the use of surveillance products. It is the buyers responsibility to ensure they comply with the appropriate regulations when using this product. Specifications Subject to Change Without Notice. See Uniden Website for any changes: uniden.com.au * IP65 Weatherproof is defined as no ingress of dust, complete protection against contact (dust tight) and Water projected in jets (6.3mm nozzle) against the enclosure of the camera from any direction shall have no harmful effects. # WiFi range (Distance) is all dependent on your router's capability, which will affect your network coverage. If you need to extend your network coverage many third party range extenders are available that improve distance and eliminate black spots. Range Performance is affected by factors such as: full brick walls, tin roofs & large or multi-story houses. ^ Both smartphone/tablet and the camera will require internet connection for this feature to work. † Minimum Network Bandwidth Requirements: For optimal performance of the smartphone app we advise a minimum network bandwidth of 10Mbps for Ultra HD (4K) live stream and 3Mbps for HD (672P) live stream. If these bandwidth requirements are not met the live stream may not connect and will not be viewable on your smartphone. All brand names are registered trademarks of their respective owners.
