app Cam SX SERIES

100% WIREFREE 1080P SPOTLIGHT SECURITY CAMERA

100% WIRE-FREE OVER WIFI:

Free from ugly cables and wiring hassles. No need for base stations.

COLOUR NIGHT VISION:

Offers clearer night vision. With the spotlight built into the camera this adds colour to the night vision footage.

SPOTLIGHT AND CAMERA IN 1:

PIR Motion Activated Spotlight illuminates your way and adds colour to see better in the dark.

THERMO SENSE TECHNOLOGY:

A smart heat and movement sensor that reduces any false triggers and ensures you are alerted to real alerts.

FULL HD 1080P:

Get crystal clear vision with true Full HD 1080p. View live streaming in more detail.

90 DAYS OPERATING TIME*:

Rechargeable Battery Works without being plugged in. Long-lasting on one charge.

SD CARD & CLOUD BACKUP:

Micro SD card (not included) for local storage and cloud backup for offsite storage. 3 Days of Cloud Storage is offered with longer paid plans available.

WEATHERPROOF DESIGN (IP65)*:

Place the camera outdoors or indoors, without worrying about the weather. Uniden App Cam SX guards you rain or shine.

90° WIDE VIEWING ANGLE:

Wider field of vision to cover more of the house.

SMART INTELLIGENT ALERTS:

Get instant app push notifications and siren alerts when danger happens.

SIREN ALERT TRIGGER:

A siren is built into the camera to deter unwanted visitors.

TWO-WAY TALK:

Listen to what's going on and talk back through the built-in mic and speaker.

MOTION DETECTION RECORD:

Save motion events on micro SD card (not included) or Uniden Cloud for later playback.

LOW-BATTERY NOTIFICATIONS:

Informs you when battery capacity reaches 10%.

RAPID WAKE-UP:

Wake-up at once when you view live streaming, or when motion events are detected.

INNOVATIVE INSTALLATION DESIGN:

Bracket and other accessories help it blend into any placement.

Uniden Australia Pty Limited is a wholly owned subsidiary of Uniden Holdings Co Ltd. uniden.com.au Some jurisdictions and authorities may regulate the use of surveillance products. It is the buyers responsibility to ensure they comply with the appropriate regulations when using this product. Specifications Subject to Change Without Notice. See Uniden Website for any changes: uniden.com.au * IP65 Weatherproof is defined as no ingress of dust; complete protection against contact (dust tight) and Water projected in jets (6.3mm nozzle) against the enclosure of the camera from any direction shall have no harmful effects. # WiFi range (Distance) is all dependent on your router's capability, which will affect your network coverage. If you need to extend your network coverage many third party range extenders are available that improve distance and eliminate black spots. Range Performance is affected by factors such as: full brick walls, tin roofs & large or multi-story houses. ^ Both smartphone/tablet and the camera will require internet connection for this feature to work. † Ensure solar panel is directed at sunlight. Different weather conditions in Australia and New Zealand can affect the rate of charge to the battery. Minimum Network Bandwidth Requirements: For optimal performance of the smartphone app we advise a minimum network bandwidth of 4Mbps for Full HD (1080P) live stream, 2Mbps for HD (720P) live stream and 0.8Mbps for 352P live stream. If these bandwidth requirements are not met the live stream may not connect and will not be viewable on your smartphone. Motion Detection: Motion detection can be triggered by the PIR sensor in the camera. The PIR sensor only detects objects with heat up to 10 metres away and in the line of sight. At night, or in darkness, monitor motion detection sensitivity is not as effective as in daylight hours, as it relies on night vision capabilities. ‡ Based on Full Capacity Rechargeable Lithium Battery with one (1) detection a day only.
