Ideal for all boating and marine applications, the Voyager is a 5 Watt Waterproof VHF Marine Radio with Metal Alloy Casing. Equipped with a table-top drop-in charger allowing you to conveniently charge your unit and spare battery at the same time, this compact two-way radio is certified to meet the world standard JIS7 waterproof level.

The Voyager also allows you to switch between 1 watt output, to preserve the life of the battery and 5 watt output, which provides maximum transmission power. The Large LCD Display and Keypad is backlit for easy viewing at night or in low light situations. The Voyager is also equipped with Triple Watch Mode which monitors Channel 16 and Channel 9 simultaneously for a signal while at the same time allowing you to listen to the selected channel and the convenience One Touch Emergency Channel 16.

Engineered and designed in Japan specifically for the rugged Australian and New Zealand conditions, Uniden's Voyager is durable enough to take anywhere and offers outstanding performance in all situations. With extended range and crystal clear sound, the Voyager is the ultimate in marine communications.

Suggested Retail: \$299.95
