Range Brochure PDF

Operating Manual PDF

Designed and engineered in Japan, Uniden's WDECT 2300 uses the innovative new 2.4GHz WDECT technology.

The WDECT 2300 is the entry level model in the WDECT series and is great value for those that want to experience the added benefits of WDECT technology.

WDECT is a Wideband DECT digital technology which delivers increased clarity, range and security compared to traditional DECT products. The WDECT 2300 has Alpha Display Caller ID, 100 Caller ID memories and the ability to allocate individual caller ring tones to enable easy caller identification. The Speakerphone on the handset makes handsfree communication a breeze. This phone is multi handset capable, allowing up to 2 handsets to be connected to just one phone socket. An LCD Display and stylish looking handset makes it a must for anyone.

Uniden quality and performance make the WDECT 2300 an outstanding DECT choice.

The WDECT 2300 is available in either in a ivory colour or titanium grey.

Suggested Retail: \$99.

The WDECT 2305 is available as an additional handset and charging base.  
Suggested Retail: \$99
