Operating Manual PDF

The Uniden Wireless Power Deluxe Kit is the ultimate solution for easy to use wire free charging. The Deluxe Kit includes 1 X Wireless Pad, 1 X iPhone Power Sleeve and a Power Disc with 8 Interchangeable Tips.

The Uniden Wireless Pad measures 20 x 15 cm in size, is very thin and capable of delivering up to 15 Watts of power – plenty of power to simultaneously charge multiple devices such as mobile phones or portable music players. A single Uniden Wireless Power Pad placed on the Kitchen Counter or Desk can possibly charge your whole family's mobile phones overnight!

Compatible with over 600 Devices. For use with an assortment of enabled mobile electronics from well known brands such as Apple, BlackBerry (RIM), Nokia, Motorola, HTC, Sony Ericsson and many more.

Enable your iPhone for wire-free charging with the Uniden iPhone Power Sleeve. Uniden Wireless Power Technology is integrated into a flexible protective gel cover ("sleeve") that fits snugly over the body of the iPhone. Embedded into the back of the protective sleeve is the Uniden contact module that makes electrical connection with the surface of the Uniden Wireless Power.

The Power Disc & 8 Interchangeable is small and easy to use. It provides a convenient charging option for hundreds of different devices across many different categories. Uniden contact module is embedded in the belly of the disc which sends power to your mobile device via the connected tip when it makes electrical contact with the surface of the Wireless Power Pad.

(Note: The pad itself requires AC power. However, the connection between the device to be charged and the Pad can now be free from individual power adaptors.)

How Does Wireless Power Work?

Uniden Wireless Power - Drop & Charg...

Conductive Charging

Wireless Power Technology works instantaneously on the metal-on-metal contact between the pad and the sleeve or disc

Safety

The direct metal-on-metal contact allows for a very efficient and safe T power transfer without generating harmful radiation, microwaves or magnetic fields.

Easy Installation

Drop & Charge, Grab & Go.

Suggested Retail: \$149.95
