Introducing the latest in cordless phone technology. XDECT is the new benchmark in digital cordless phone communication offering Extended Coverage for the DECT frequency. What makes XDECT unique and superior to other cordless phones is the diversity antenna system for optimal reception and clarity by mitigating multi-path errors. The high gain antenna allows for greater range and to eliminate dropout areas in your home.

Designed and engineered in Japan, Uniden's XDECT 7005 has been purpose built for Australia and New Zealand. Ideal for high-density urban living - the XDECT range is wireless (WiFi) Network Friendly meaning the cordless phone will not interfere with other wireless networks in the surrounding area.

The XDECT 7000 Series other stand-out features aimed at providing the user with enhanced control over incoming phone calls. For easier caller identification, the XDECT 7000 Series also enables the user to allocate polyphonic ringtones to individual callers in addition to displaying caller ID. This phone is multi handset capable, allowing up to 6 handsets to be connected to just one phone socket. A blue backlit LCD Display and Keypad enables easy use in all light conditions.

The XDECT 7005 is equipped with a Digital Duplex Speakerphone on the handset making handsfree communication a breeze. Uniden quality and performance make the XDECT 7005 an outstanding and reliable digital choice.

Suggested Retail: \$59.95

The XDECT 7005 is an additional handset only and works in conjunction with the XDECT 70XX series
